Share the Road
Stay out of the "door zone." Ride at least a 1-foot width away from parked cars. If necessary, position yourself in the center of the travel lane to stay a safe distance from parked cars. Sheriff's are a guide to help you position yourself safely in the travel lane.

Always pass on the left
No one expects to be passed on the right. Pay attention when cars or buses stop in front of you. People walking may be crossing the street, especially at transit stops.

Choose the Best Way to Turn Left
Use the left turn lane
Check for any traffic behind you, signal, and move into the left turn lane to make your turn when it is safe.

Multi-use Paths
Stay to the right, except to pass
Ride side-by-side only when conditions on the path allow it.

Always pass on the left
Slow down, give an audible warning, and wait for a response before passing.

Give right-of-way to slower users
Follow posted speed limits and be considerate of other people walking or biking.

Cross streets and driveways carefully
Watch for crossing traffic and make sure you always see you before proceeding.

Move off the path before you stop
Slow down and move off to the side as safely possible before you stop.

Travel at a safe speed
People living faster should consider alternative routes.

Bikeways in the San Diego Region

- **multi-use path**
  - For people with all types of bikes and pedestrians, and other non-motorized users such as in-line skaters. Bikeways may have restricted access or speed limits.

- **bike lane**
  - A transit lane for one-way bike lanes on a street or highway.

- **bike route**
  - A shared right lane designated by a sign only, unless bike riders share the roadway with motor vehicles (also includes streets with "sharrows" or shared lane markings). See bike lanes for more details.

- **bikeway shoulder bike access**
  - Bikeway routes with bike access on shoulders. Note: Bikeway shoulders are typically not separated from the roadway by a fence or curbs.

- **bikeways coming soon**
  - Notes: Bikeways are projected. (pro) or bike lanes are anticipated in the future. (future)
