The San Diego region is the perfect opportunity to explore more than 1,700 miles of bike paths throughout the county. This map highlights the latest biking information for city and regional areas of San Diego. The scenic bikeways will provide a beautiful and relaxed experience, especially by0 crossing shaded and tranquil areas. See the details of this region's network and facilities in this map.

bike map

Commute is your gateway to commute options in the San Diego region. The program is managed by SANDAG as part of the regional STD transportation planning process and promotes a bike path network. Commute wants to be a resource for bike travelers, allowing you to easily connect to bike travel in your desired location. Many bike shops offer bike rentals and sales, so you can test out a spot before you buy. This map highlights bike travel paths and features in the San Diego region.

bike ways

The production of this map can be found in the San Diego region. We encourage you to bike to work, ride your bike to school or to enjoy the beautiful weather and facilities in this region. For more information on bike travel paths and features in the San Diego region, visit www.iCommuteSD.com.

bike lockers

Bike lockers are free to use at all iCOMMUTE and SANDAG stations, train stations, and bike Park and Ride lots. The activity is a community effort to help you while you bike travel and in this area. Many bike shops offer bike rentals and sales, so you can test out a spot before you buy. This map highlights bike travel paths and features in the San Diego region.
